

Build Capacity:

Teachers and Educators engage in professional learning, critical reflection and planning

Modelling:

Teachers and Educators model conversation and communication skills with children

Language rich environment:

Teachers and Educators plan for and create opportunities for children to communicate

Collect and analyse data:

Teachers and Educators collect data on each child to identify areas of support and stretch

GOAL: To improve children's confidence to communicate

Challenge of practice:

If we implement a language rich environment, children will become confident to initiate and maintain conversations with peers, teachers and educators.

Success Criteria:

*Each child will: Initiate conversations,
Maintain conversations,
Express their needs, wants and ideas.*
